Property Results

In response to the initial outbreak of COVID-19 in early 2020, each of our properties was subject to partial or full closure for varying lengths of time during 2020, and each has since reopened with certain COVID-19 specific protective measures in place. Although authorities around the world have eased COVID-19 protective measures and several vaccines have been granted authorization in numerous countries and are being rolled out to citizens based on availability and priority of need, certain travel restrictions, quarantine measures, testing requirements, and capacity limitations remain in effect, and the Company is currently unable to determine when protective measures will be lifted and when the Company will be able to resume certain offerings at our Macau Operations, Las Vegas Operations, and Encore Boston Harbor. On April 13, 2021, the Governor of Nevada announced that the statewide social distancing mandate will be removed and decisions on social distancing will be returned to local authority by May 1, with a goal to have all Nevada counties open to 100% of capacity by June 1. The Nevada Gaming Control Board will continue to maintain authority over gaming areas of licensed properties in Nevada. On May 3, 2021, the Gaming Control Board announced that, effective immediately, the Company's Las Vegas Operations are permitted to reopen all gaming areas to 100% of capacity, with no continuing table game or slot machine spacing restrictions. On April 27, 2021, the Governor of Massachusetts announced a phased plan for further reopening and increased capacity over the next several months. Effective August 1, 2021, subject to public health and vaccination data, all industry restrictions will be lifted and capacity limits will increase to 100%.

Forward-looking Statements

This release contains forward-looking statements regarding operating trends and future results of operations. Such forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially from those we express in these forward-looking statements, including, but not limited to, the recent global pandemic of COVID-19, caused by a novel strain of the coronavirus, and the continued impact of its consequences, extensive regulation of our business, pending or future legal proceedings, ability to maintain gaming licenses and concessions, dependence on key employees, general global political and economic conditions, adverse tourism trends, dependence on a limited number of resorts, competition in the casino/hotel and resort industries, uncertainties over the development, and success of new gaming and resort properties, construction risks, cybersecurity risk and our leverage and debt service. Additional information concerning potential factors that could affect the Company's financial results is included in the Company's Annual Report on Form 10-K for the year ended December 31, 2020 and the Company's other periodic reports filed with the Securities and Exchange Commission. The Company is under no obligation to (and expressly disclaims any such obligation to) update or revise its forward-looking statements as a result of new information, future events or otherwise.

Non-GAAP Financial Measures

(1) "Adjusted Property EBITDA" is net loss before interest, income taxes, depreciation and amortization, pre-opening expenses, property charges and other, management and license fees, corporate expenses and other (including intercompany golf course, meeting and convention, and water rights leases), stock-based compensation, change in derivatives fair value, loss on extinguishment of debt, and other non-operating income and expenses. Adjusted Property EBITDA is presented exclusively as a supplemental disclosure because management believes that it is widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses Adjusted Property EBITDA as a measure of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors, as well as a basis for determining certain incentive compensation. We also present Adjusted Property EBITDA because it is used by some investors to measure a company's ability to incur and service debt, make capital expenditures and meet working capital requirements. Gaming companies have historically reported EBITDA as a supplement to GAAP. In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including us, have historically excluded from their EBITDA calculations preopening expenses, property charges, corporate expenses and stock-based compensation, that do not relate to the management of specific casino properties. However, Adjusted Property EBITDA should not be considered as an alternative to operating income as an indicator of our performance, as an alternative to cash flows from operating activities as a measure of liquidity, or as an alternative to any other measure determined in accordance with GAAP. Unlike net income, Adjusted Property EBITDA does not include depreciation or interest expense and therefore does not reflect current or future capital expenditures or the cost of capital. We have significant uses of cash flows, including capital expenditures, interest payments, debt principal repayments, income taxes and other non-recurring charges, which are not reflected in Adjusted Property EBITDA. Also, our calculation of Adjusted Property EBITDA may be different from the calculation methods used by other companies and, therefore, comparability may be limited.

(2) "Adjusted net loss attributable to Wynn Resorts, Limited" is net loss attributable to Wynn Resorts, Limited before pre-opening expenses, property charges and other, change in derivatives fair value, loss on extinguishment of debt, and foreign currency remeasurement and other, net of noncontrolling interests and income taxes calculated using the specific tax treatment applicable to the adjustments based on their respective jurisdictions. Adjusted net loss attributable to Wynn Resorts, Limited and adjusted net loss attributable to Wynn Resorts, Limited per diluted share are

presented as supplemental disclosures to financial measures in accordance with GAAP because management believes that these non-GAAP financial measures are widely used to measure the performance, and as a principal basis for valuation, of gaming companies. These measures are used by management and/or evaluated by some investors, in addition to net income (loss) and earnings per share computed in accordance with GAAP, as an additional basis for assessing period-to-period results of our business. Adjusted net loss attributable to Wynn Resorts, Limited and adjusted net loss attributable to Wynn Resorts, Limited per diluted share may be different from the calculation methods used by other companies and, therefore, comparability may be limited.

The Company has included schedules in the tables that accompany this release that reconcile (i) net loss attributable to Wynn Resorts, Limited to adjusted net loss attributable to Wynn Resorts, Limited, (ii) operating income (loss) to Adjusted Property EBITDA, and (iii) net loss attributable to Wynn Resorts, Limited to Adjusted Property EBITDA.

Note: Our casino operations in Macau were closed for a 15-day period in February 2020 and resumed operations on a reduced basis on February 20, 2020. Our casinos' operations have since been fully restored; however, certain COVID-19 specific protective measures, such as limiting the number of seats per table game, increasing the spacing between active slot machines and visitor entry checks and requirements involving temperature checkpoints, mask wearing, health declarations and proof of negative COVID-19 test results for travelers seeking entry to Macau remain in effect at the present time. We are currently unable to determine when these measures will be lifted.

Note: Encore Boston Harbor ceased all operations and closed to the public on March 15, 2020, for the remainder of the first and second quarters of 2020. On July 12, 2020, Encore Boston Harbor reopened with certain COVID-19 specific protective measures in place, such as limiting the number of seats per table game, slot machine spacing, temperature checks, and mask protection. On November 6, 2020, Encore Boston Harbor temporarily suspended hotel operations and overnight casino operations pursuant to a state directive limiting the operating hours of certain businesses, including restaurants and casinos. On January 25, 2021, the limitations on operating hours were lifted, and Encore Boston Harbor restored 24-hour casino operations and reopened its hotel tower on a Thursday through Sunday weekly schedule. Accordingly, Encore Boston Harbor's room statistics have been computed based on 36 days of operations for the three months ended March 31, 2021 and 74 days of operations for the three months ended March 31, 2020, respectively.
