Management Discussion and Analysis

OVERVIEW

Wynn Macau opened to the public on 6 September 2006 at the center of casino activities on the urban Macau peninsula. In December 2007 and November 2009, Wynn Macau completed expansions, adding more gaming space and additional food and beverage and retail amenities. Encore at Wynn Macau, a further expansion of Wynn Macau that added a fully integrated resort hotel, opened in April 2010.

Our Macau resort complex features:

- Approximately 280,000 square feet of casino space, offering 24-hour gaming and a full range of games, including private gaming salons, sky casinos and a poker pit;
- Two luxury hotel towers with a total of 1,008 spacious guest rooms and suites;
- Casual and fine dining in eight restaurants;
- Approximately 57,000 square feet of high-end, brand-name retail shopping, including stores and boutiques such as Bvlgari, Cartier, Chanel, Dior, Dunhill, Ermenegildo Zegna, Ferrari, Giorgio Armani, Graff, Gucci, Hermes, Hugo Boss, Jaeger LeCoultre, Louis Vuitton, Miu Miu, Piaget, Prada, Roger Dubuis, Rolex, Tiffany, Vacheron Constantin, Van Cleef & Arpels, Versace, Vertu, and others;
- Recreation and leisure facilities, including two health clubs and spas, a salon, and a pool; and
- Lounges and meeting facilities.

The following table presents the number of casino games available at our Macau Operations:

	As at 30 June	
	2014	2013
VIP table games	256	285
Mass market table games	200	205
Slot machines	613	884
Poker tables	9	10

In response to on-going evaluation of our operations and the feedback from our guests, we have been making, and will continue to make enhancements and refinements to our resort complex. In March 2014, we began renovation of approximately 27,000 square feet of casino space for new VIP gaming rooms which has resulted in a reduction in the number of table games and slot machines. We expect to complete this renovation before Chinese New Year of 2015.

Management Discussion and Analysis

Cotai Development

The Group is currently constructing Wynn Palace, a full-scale integrated resort containing an approximately 1,700-room hotel, performance lake, meeting space, casino, spa, retail offerings and food and beverage outlets in the Cotai area of Macau. The total project budget is approximately HK\$31 billion including construction costs, capitalized interest, pre-opening expenses, land costs and financing fees. As of 30 June 2014, we have invested approximately HK\$8.7 billion in the project. The Company expects to open Wynn Palace in the first half of 2016.

On 29 July 2013, WRM and Palo finalized and executed a guaranteed maximum price construction ("GMP") contract with Leighton Contractors (Asia) Limited, acting as the general contractor. Under the GMP contract, the general contractor is responsible for both the construction and design of the Wynn Palace project. The general contractor is obligated to substantially complete the project in the first half of 2016 for a guaranteed maximum price of HK\$20 billion (approximately US\$2.57 billion). An early completion bonus for achievement of substantial completion on or before 25 January 2016 will be paid to the general contractor if certain conditions are satisfied under the GMP contract. Both the contract time and guaranteed maximum price are subject to further adjustment under certain specified conditions. The performance of the general contractor is backed by a full completion guarantee given by Leighton Holdings Limited, the parent company of the general contractor, as well as a performance bond for equal to 5% of the guaranteed maximum price.

Macau

Macau, which was a territory under Portuguese administration for approximately 450 years, was transferred from Portuguese to Chinese political control in December 1999. Macau is governed as a special administrative region of China and is located approximately 37 miles southwest of, and approximately one hour away via ferry from, Hong Kong. Macau, which has been a casino destination for more than 50 years, consists principally of a peninsula on mainland China, and two neighboring islands, Taipa and Coloane. We believe that Macau is located in one of the world's largest concentrations of potential gaming customers. According to Macau statistical information, casinos in Macau generated approximately HK\$187.5 billion in gaming revenue during the six months ended 30 June 2014, an increase of approximately 12.6% over the approximate HK\$166.5 billion generated in the six months ended 30 June 2013, making Macau the largest gaming market in the world.

Management Discussion and Analysis

FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Tourism

The levels of tourism and overall gaming activities in Macau are key drivers of our business. Both the Macau gaming market and visitation to Macau have grown significantly in the last few years; however, tourist arrivals to Macau remained stable during the six months ended 30 June 2014 compared to the six months ended 30 June 2013. We have benefited from the rise in visitation to Macau over the past several years.

Macau's gaming market is primarily dependent on tourists. Tourist arrivals for the six months ended 30 June 2014 were 15.3 million compared to 14.1 million for the same period last year. The Macau market has experienced tremendous growth in capacity since the opening of Wynn Macau. As at 31 May 2014, there were 28,000 hotel rooms and as at 30 June 2014, there were 5,710 table games and 12,895 slots in Macau, compared to 12,978 hotel rooms and 2,762 table games and 6,546 slots as at 31 December 2006.

Gaming customers traveling to Macau typically come from nearby destinations in Asia including mainland China, Hong Kong, Taiwan, South Korea and Japan. According to the Macau Statistics and Census Service Monthly Bulletin of Statistics, approximately 90.6% of visitors to Macau for the six months ended 30 June 2014 were from mainland China, Hong Kong, and Taiwan.

Tourism levels in Macau are affected by a number of factors, all of which are beyond our control. Key factors affecting tourism levels in Macau may include, among others:

- Prevailing economic conditions in mainland China and Asia;
- Various countries' policies on currency restrictions and the issuance of travel visas that may be in place from time to time;
- Competition from other destinations which offer gaming and leisure activities;
- Occurrence of natural disasters and disruption of travel; and
- Possible outbreaks of infectious disease.

Economic and Operating Environment

Our operating environment has remained stable during the six months ended 30 June 2014. However, economic conditions can have a significant impact on our business. A number of factors, including a slowdown in the global economy, contracting credit markets, reduced consumer spending, various countries' policies that affect travel to Macau, any outbreak of infectious diseases and stricter smoking regulations can negatively impact the gaming industry in Macau and our business.

Management Discussion and Analysis

Competition

Since the liberalization of Macau's gaming industry in 2002, there has been a significant increase in the number of casino properties in Macau. There are six gaming operators in Macau, including WRM. The three concessionaires are WRM, SJM, and Galaxy. The three subconcessionaires are Melco Crown, MGM Macau, and Venetian Macau. As at 30 June 2014, there were approximately 35 casinos in Macau, including 20 operated by SJM. Each of the six gaming operators has operating casinos and expansion plans announced or underway.

Wynn Macau also faces competition from casinos located in other areas of Asia, such as Resorts World Sentosa and Marina Bay Sands in Singapore and Resorts World Genting, located outside of Kuala Lumpur, Malaysia. Wynn Macau also faces competition from the Philippines where Solaire Resort and Casino opened in March 2013 and several other major casino resorts are scheduled to open over the next few years. Wynn Macau also encounters competition from other major gaming centers located around the world, including Australia and Las Vegas, cruise ships in Asia that offer gaming, and other casinos throughout Asia. Further, if current efforts to legalize gaming in other Asian countries are successful, Wynn Macau will face additional regional competition.

Gaming Promoters

A significant amount of our casino play is brought to us by gaming promoters. Gaming promoters have historically played a critical role in the Macau gaming market and are important to our casino business.

Gaming promoters introduce premium VIP players to Wynn Macau and often assist those players with their travel and entertainment arrangements. In addition, gaming promoters often grant credit to their players. In exchange for their services, Wynn Macau generally pays the gaming promoters a commission which is a percentage of the gross gaming win generated by each gaming promoter. Approximately 80% of these commissions are netted against casino revenues, because such commissions approximate the amount of the commission returned to the VIP players by the gaming promoters, and approximately 20% of these commissions are included in other operating expenses, which approximate the amount of the commission ultimately retained by the gaming promoters as compensation. The total amount of commissions paid to gaming promoters and netted against casino revenues was HK\$4.0 billion for the six months ended 30 June 2014 and 2013. Commissions remained flat for the six months ended 30 June 2014 compared to the six months ended 30 June 2013 as VIP gross table games win increased slightly due to increased business volumes offset by a lower win percentage.

Management Discussion and Analysis

We typically advance commissions to gaming promoters at the beginning of each month to facilitate their working capital requirements. These advances are provided to a gaming promoter and are offset by the commissions earned by such gaming promoter during the applicable month. The aggregate amounts of exposure to our gaming promoters, which is the difference between commissions advanced to each individual gaming promoter, and the commissions payable to each such gaming promoter, were HK\$683.5 million and HK\$492.1 million as at 30 June 2014 and 2013, respectively. At the end of each month any commissions outstanding are cleared no later than the fifth day of the succeeding month and prior to the advancement of any further funds to a gaming promoter. We believe we have developed strong relationships with our gaming promoters. Our commission percentages have remained stable throughout our operating history.

In addition to commissions, gaming promoters each receive a monthly complimentary allowance based on a percentage of the turnover their clients generate. The allowance is available for room, food and beverage and other products and services for discretionary use with the gaming promoter's clients.

Premium Credit Play

We selectively extend credit to our VIP players contingent upon our marketing team's knowledge of the players, their financial background and payment history. We follow a series of credit procedures and require various signed documents from each credit recipient that are intended to ensure, among other things that, if permitted by applicable law, the debt can be legally enforced in the jurisdiction where the player resides. In the event the player does not reside in a jurisdiction where gaming debts are legally enforceable, we can attempt to assert jurisdiction over assets the player maintains in jurisdictions where gaming debts are recognized. In addition, we typically require a check in the amount of the applicable credit line from credit players, collateralizing the credit we grant.

Number and Mix of Table Games and Slot Machines

The mix of VIP table games, mass table games and slot machines in operation at our resort changes from time to time as a result of marketing and operating strategies in response to changing market demand and industry competition. The shift in the mix of our games will affect casino profitability.

Management Discussion and Analysis

ADJUSTED EBITDA

Adjusted EBITDA is earnings before finance costs, taxes, depreciation, amortization, pre-opening costs, property charges and other, share-based payments, corporate expenses, and other non-operating income and expenses. Adjusted EBITDA is presented exclusively as a supplemental disclosure because our Directors believe that it is widely used to measure the performance, and as a basis for valuation, of gaming companies. Our Adjusted EBITDA presented herein also differs from the Adjusted EBITDA presented by Wynn Resorts, Limited for its Macau segment in its filings with the SEC, primarily due to the inclusion of royalty fees, adjustments for IFRS differences with U.S. GAAP, corporate support and other support services in arriving at operating profit.

The following table sets forth a quantitative reconciliation of Adjusted EBITDA to its most directly comparable IFRS measurement, operating profit, for the six months ended 30 June 2014 and 2013.

Notes:

- (1) Total casino revenues do not equal the sum of "VIP gross table games win," "mass market gross table games win" and "slot machine win" because casino revenues are reported net of the relevant commissions. The following table presents a reconciliation of the sum of "VIP gross table games win," "mass market gross table games win" and "slot machine win" to total casino revenues.

	For the Six Months Ended 30 June	
	2014	2013

- (2) Promotional allowances are excluded from revenues in the accompanying condensed consolidated statement of profit or loss and other comprehensive income prepared in accordance with IFRS. Management also evaluates non-casino revenues on an adjusted basis.

The following table presents a reconciliation of net non-casino revenues as reported in our condensed consolidated statement of profit or loss and other comprehensive income to gross non-casino revenues calculated on the adjusted basis. The adjusted non-casino revenues as presented below are used for management reporting purposes and are not representative of revenues as determined under IAS 18.

- (3) Mass market customers purchase gaming chips at either the gaming tables or the casino cage. Chips purchased at the casino cage are excluded from table games drop and will increase the expected win percentage. With the increased purchases at the casino cage, we believe the relevant indicator of volumes in the mass market should be table games win.
- (4) For purposes of this table, we calculate average number of gaming tables and average number of slots as the average numbers of gaming tables and slot machines in service on each day in the period.
- (5) Daily gross win per gaming table and daily win per slot are presented in this table on the basis of the average number of gaming tables and average number of slots, respectively, over the number of days Wynn Macau and Encore were open in the applicable period. In addition, the total table games win figures used herein do not correspond to casino revenues figures in our financial information because figures in our financial information are calculated net of commissions and the total table games win herein is calculated before commissions.

Management Discussion and Analysis

Discussion of Results of Operations

Financial results for the six months ended 30 June 2014 compared to financial results for the six months ended 30 June 2013

Operating Revenues

Total operating revenues increased 8.8% from HK\$14.9 billion in the six months ended 30 June 2013 to HK\$16.2 billion in the six months ended 30 June 2014.

Casino Revenues

Casino revenues increased 9.7% from HK\$14.0 billion (93.8% of total operating revenues) in the six months ended 30 June 2013 to HK\$15.4 billion (94.6% of total operating revenues) in the six months ended 30 June 2014. The components and reasons are as follows:

VIP casino gaming operations. VIP gross table games win increased slightly from HK\$13.7 billion in the six months ended 30 June 2013 to HK\$13.8 billion in the six months ended 30 June 2014. VIP table games turnover increased by 7.0%, from HK\$452.2 billion in the six months ended 30 June 2013 to HK\$483.7 billion in the six months ended 30 June 2014. VIP gross table games win as a percentage of turnover (calculated before commissions) was 3.04% in the six months ended 30 June 2013 compared to 2.85% in the six months ended 30 June 2014, which was within our expected range of 2.7% to 3.0%.

Mass market casino gaming operations. Mass market gross table games win increased by 32.9%, from HK\$3.6 billion in the six months ended 30 June 2013 to HK\$4.7 billion in the six months ended 30 June 2014. Mass market table games drop increased 4.8% from HK\$10.2 billion in the six months ended 30 June 2013 to HK\$10.7 billion in the six months ended 30 June 2014. The mass market gross table games win percentage was 35.1% in the six months ended 30 June 2013 compared to 44.5% in the six months ended 30 June 2014.

Slot machine gaming operations. Slot machine win increased by 13.6% from HK\$924.8 million in the six months ended 30 June 2013 to HK\$1.1 billion in the six months ended 30 June 2014. Slot machine handle increased by 24.8%, from HK\$17.7 billion in the six months ended 30 June 2013 to HK\$22.2 billion in the six months ended 30 June 2014. Slot machine win per unit per day increased 32.8% from HK\$5,968 in the six months ended 30 June 2013 to HK\$7,928 in the six months ended 30 June 2014. Slot machine win and slot machine handle increased primarily due to increased business volumes. Slot machine win per unit per day increased primarily due to increased business volumes and the decline in the average number of slot machines from 856 to 732.

Management Discussion and Analysis

Non-casino Revenues

Net non-casino revenues, which include rooms, food and beverage and retail and other revenues, decreased by 4.9% from HK\$924.7 million (6.2% of total operating revenues) in the six months ended 30 June 2013 to HK\$879.7 million (5.4% of total operating revenues) in the six months ended 30 June 2014. The decrease in revenues was largely due to lower retail sales in the six months ended 30 June 2014.

Room. Our room revenues, which exclude promotional allowances in our condensed consolidated statement of profit or loss and other comprehensive income, decreased by 10.7% from HK\$73.5 million in the six months ended 30 June 2013 to HK\$65.6 million in the six months ended 30 June 2014. The decrease reflects increased promotional allowances due to increased VIP business, which resulted in fewer rooms being made available to paying customers.

Management also evaluates room revenues on an adjusted basis which include promotional allowances. Adjusted room revenues including promotional allowances increased by 15.8% from HK\$447.9 million in the six months ended 30 June 2013 to HK\$518.5 million in the six months ended 30 June 2014.

The following table presents additional information about our adjusted room revenues (which include promotional allowances):

Adjusted room revenues information

	For the Six Months Ended 30 June	
	2014	2013
Adjusted Average Daily Rate (includes promotional allowances of HK\$2,284 in the six months ended 30 June 2014 and HK\$2,048 in the six months ended 30 June 2013)	HK\$2,605	HK\$2,440
Occupancy	98.3%	94.7%
Adjusted REVPAR (includes promotional allowances of HK\$2,245 in the six months ended 30 June 2014 and HK\$1,939 in the six months ended 30 June 2013)	HK\$2,559	HK\$2,310

Management Discussion and Analysis

Food and beverage. Food and beverage revenues, which exclude promotional allowances in our condensed consolidated statement of profit or loss and other comprehensive income increased by 9.4% from HK\$93.1 million to HK\$102.0 million in the six months ended 30 June 2014.

Management also evaluates food and beverage revenues on an adjusted basis including promotional allowances. Food and beverage revenues adjusted to include these promotional allowances increased by 10.0% from HK\$366.9 million in the six months ended 30 June 2013 to HK\$403.4 million in the six months ended 30 June 2014. The increase was due primarily to increased business volumes.

Retail and other. Our retail and other revenues, which exclude promotional allowances in our condensed consolidated statement of profit or loss and other comprehensive income, decreased by 6.1%, from HK\$758.0 million in the six months ended 30 June 2013 to HK\$712.1 million in the six months ended 30 June 2014. The decrease was due primarily to lower retail sales.

Management also evaluates retail and other revenues on an adjusted basis which includes promotional allowances. Adjusted retail and other revenues including promotional allowances decreased by 5.5% from HK\$777.2 million in the six months ended 30 June 2013 to HK\$734.8 million in the six months ended 30 June 2014, reflecting lower retail sales.

Operating Costs and Expenses

Gaming taxes and premiums. Gaming taxes and premiums increased by 7.7% from HK\$7.2 billion in the six months ended 30 June 2013 to HK\$7.8 billion in the six months ended 30 June 2014. This increase from the six months ended 30 June 2013 compared to the six months ended 30 June 2014 was due primarily to increased gross gaming win. WRM is subject to a 35% gaming tax on gross gaming win. In addition, WRM is required to pay 4% of its gross gaming win as contributions for public development and social facilities.

Staff costs. Staff costs increased by 28.8%, from HK\$1.2 billion in the six months ended 30 June 2013 to HK\$1.5 billion in the six months ended 30 June 2014. This increase in staff costs was primarily due to general salary increases and the new 2014 bonus plan for non-management employees.

Management Discussion and Analysis

Other operating expenses. Other operating expenses remained flat at HK\$2.5 billion for the six months ended 30 June 2013 compared to the six months ended 30 June 2014. During the six months ended 30 June 2013 and 2014, the Group recorded adjustments to the provision for doubtful accounts based on the results of historical collection patterns and current collection trends. For the six months ended 30 June 2013 compared to 30 June 2014, the adjustment made to the provision for doubtful accounts and a reduction in cost of sales was offset by increases in royalty fees, corporate support services and advertising and promotion expenses.

Depreciation and amortization. Depreciation and amortization in the six months ended 30 June 2013 increased 7.5% from HK\$451.9 million to HK\$485.9 million in the six months ended 30 June 2014.

Property charges and other, net. Property charges and other, net increased from a credit of HK\$6.4 million in the six months ended 30 June 2013 to HK\$81.0 million in the six months ended 30 June 2014. Amounts in each period represent the gain/loss on the sale of equipment and other asset as well as costs related to assets retired or abandoned as a result of renovating certain assets of Wynn Macau in response to customer preferences and changes in market demand.

As a result of the foregoing, total operating costs and expenses increased by 9.3%, from HK\$11.3 billion in the six months ended 30 June 2013 to HK\$12.3 billion in the six months ended 30 June 2014.

Finance Revenues

Finance revenues increased from HK\$61.6 million in the six months ended 30 June 2013 to HK\$73.9 million in the six months ended 30 June 2014. The increase is primarily due to holding higher average cash balances for the six months ended 30 June 2014 compared to the six months ended 30 June 2013. During 2014 and 2013, our short-term investment strategy has been to preserve capital while retaining sufficient liquidity. The majority of our short-term investments are primarily in time deposits and fixed deposits with a maturity of three months or less.

Finance Costs

Finance costs increased by 85.7%, from HK\$159.2 million in the six months ended 30 June 2013 to HK\$295.7 million in the six months ended 30 June 2014. Finance costs increased in the six months ended 30 June 2014 primarily due to the issuance of WML 2021 Notes in October 2013 and WML 2021 Additional Notes in March 2014 offset by the increase in capitalized interest related to the construction of Wynn Palace.

Management Discussion and Analysis

Interest Rate Swaps

As required under the terms of the Wynn Macau Credit Facilities, we entered into agreements to swap the interest on our loans from floating to fixed rates. These transactions did not qualify for hedge accounting.

Changes in the fair value of our interest rate swaps are recorded as an increase or decrease in swap fair value during each period. During the six months ended 30 June 2014 and 30 June 2013, we recorded a loss of HK\$29.6 million and a gain of HK\$129.3 million, respectively, resulting from the movement in the fair value of our interest rate swaps.

Income Tax Expense

In the six months ended 30 June 2014, our income tax expense was HK\$12.5 million compared to an income tax expense of HK\$7.5 million in the six months ended 30 June 2013. Our tax expense for the six months ended 30 June 2014, primarily relates to the current tax expense recorded by our subsidiaries owning WRM's shares under the WRM Shareholder Dividend Tax Agreement and a deferred tax expense resulting from an increase in deferred tax liability for property and equipment. In the six months ended 30 June 2013, our income tax expense relates to the current tax expense of our subsidiaries owning WRM's shares under the WRM Shareholder Dividend Tax Agreement.

Net Profit Attributable to Owners of the Company

As a result of the foregoing, net profit attributable to owners of the Company decreased slightly from HK\$3.7 billion for the six months ended 30 June 2013 to HK\$3.6 billion for the six months ended 30 June 2014.

LIQUIDITY AND CAPITAL RESOURCES

Capital Resources

Since Wynn Macau opened in 2006, we have generally funded our working capital and recurring expenses as well as capital expenditures from cash flow from operations and cash on hand.

Management Discussion and Analysis

Our cash balances as at 30 June 2014 were HK\$16.1 billion. Such cash is available for operations, new development activities, enhancements to Wynn Macau and Encore and general corporate purposes.

On 20 March 2014, the Company issued 5.25% fixed rate, unsecured senior notes due 2021 for an aggregate principal amount of US\$750 million (approximately HK\$5.9 billion), which were consolidated to form a single series with the then existing US\$600 million (approximately HK\$4.7 billion) 5.25% fixed rate, unsecured senior notes due 2021. The Company received net proceeds of US\$749 million (approximately HK\$5.8 billion) from the offering of the WML 2021 Additional Notes after including the premiums and deducting the commissions and expenses of the offering and excluding the receipt of accrued interest. The Company will use the net proceeds for working capital requirements and general corporate purposes. The WML 2021 Additional Notes have the same terms and conditions as those of the WML 2021 Notes, save for the issue date and purchase price, and also mature in October 2021.

During the six months ended 30 June 2013, the net cash used in financing activities was primarily due to the Company's payment of a HK\$6.4 billion dividend.

Management Discussion and Analysis

Wynn Macau Credit Facilities

Overview

As at 30 June 2014, the Wynn Macau Credit Facilities consisted of approximately HK\$19.5 billion in a combination of Hong Kong dollar and U.S. dollar facilities, including an approximately HK\$7.4 billion fully funded senior term loan facility and an approximately HK\$12.1 billion senior revolving credit facility. The facilities may be used for a variety of purposes, including investment in our Wynn Palace project, further enhancements at our resort and general corporate purposes.

The HK\$7.4 billion equivalent term loan facility matures in July 2018 with the principal amount of the term loan to be repaid in two installments in July 2017 and July 2018. The final maturity for the revolving credit facility is July 2017, by which date any outstanding revolving loans must be repaid. The senior secured facilities bear interest at a rate of LIBOR or HIBOR plus a margin of between 1.75% and 2.50% depending on WRM's leverage ratio.

Security and Guarantees

Borrowings under the Wynn Macau Credit Facilities are guaranteed by Palo and by certain subsidiaries of the Company that own equity interest in WRM, and are secured by substantially all of the assets of WRM, the equity interests in WRM and substantially all of the assets of Palo. With respect to the Concession Agreement and WRM's land concession agreement, the WRM lenders have certain cure rights and consultation rights with the Macau government in the event of an enforcement action by the lenders.

Second Ranking Lender

WRM is also party to a bank guarantee reimbursement agreement with Banco Nacional Ultramarino S.A. to secure a guarantee in favor of the Macau government as required under the Concession Agreement. The amount of this guarantee is MOP300 million (approximately HK\$291.3 million) and it lasts until 180 days after the end of the term of the Concession Agreement. The guarantee assures WRM's performance under the Concession Agreement, including the payment of certain premiums, fines and indemnities for breach. The guarantee is secured by a second priority security interest in the same collateral package securing the Wynn Macau Credit Facilities.

Management Discussion and Analysis

QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Market risk is the risk of loss arising from adverse changes in market rates and conditions, such as inflation, interest rates, and foreign currency exchange rates.

Management Discussion and Analysis

Foreign Exchange Risks

The financial statements of foreign operations are translated into Hong Kong dollars, the Company's functional and presentation currency, for incorporation into the condensed consolidated financial information. The majority of our assets and liabilities are denominated in U.S. dollars, Hong Kong dollars and Macau patacas, and there are no significant assets and liabilities denominated in other currencies. Assets and liabilities are translated at the prevailing foreign exchange rates in effect at the end of the reporting period. Income, expenditures and cash flow items are measured at the actual foreign exchange rates or average foreign exchange rates for the period. The Hong Kong dollar is linked to the U.S. dollar and the exchange rate between these two currencies has remained relatively stable over the past several years. The Macau pataca is pegged to the Hong Kong dollar, and in many cases the two currencies are used interchangeably in Macau. However, the exchange linkages of the Hong Kong dollar and the Macau pataca, and the Hong Kong dollar to the U.S. dollar, are subject to potential changes due to, among other things, changes in governmental policies and international economic and political developments.

Interest Rate Risks

One of our primary exposures to market risk is interest rate risk associated with our credit facilities, which bear interest based on floating rates. We attempt to manage interest rate risk by managing the mix of long-term fixed rate borrowings and variable rate borrowings supplemented by hedging activities as considered necessary. We cannot assure you that these risk management strategies will have the desired effect, and interest rate fluctuations could have a negative impact on our results of operations.

As at 30 June 2014, the Group had three interest rate swap agreements intended to manage the underlying interest rate risk on borrowings under the Wynn Macau Credit Facilities. Under two swap agreements, the Group pays a fixed interest rate of 0.73% on borrowings of approximately HK\$3.95 billion incurred under the Wynn Macau Credit Facilities in exchange for receipts on the same amount at a variable interest rate based on the applicable HIBOR at the time of payment. These interest rate swaps fix the all-in interest rate on approximately HK\$3.95 billion of borrowings under the Wynn Macau Credit Facilities at approximately 2.48% and expire in July 2017.

Under the third swap agreement, the Group pays a fixed rate of 0.6763% on borrowings of US\$243.8 million (approximately HK\$1.8 billion) incurred under the Wynn Macau Credit Facilities in exchange for receipts on the same amount at a variable interest rate based on the applicable LIBOR at the time of payment. This interest rate swap fixes the all-in interest rate on the US\$243.8 million (approximately HK\$1.8 billion) of borrowings under the Wynn Macau Credit Facilities at approximately 2.43% and expires in July 2017.

Management Discussion and Analysis

The carrying values of these interest rate swaps on the condensed consolidated statement of financial position approximates their fair values. The fair value approximates the amount the Group would pay if these contracts were settled at the respective valuation dates. Fair value is estimated based upon current, and predictions of future interest rate levels along a yield curve, the remaining duration of the instruments and other market conditions and, therefore, is subject to significant estimation and a high degree of variability of fluctuation between periods. We adjusted this amount by applying a non-performance valuation, considering our creditworthiness or the creditworthiness of our counterparties at each settlement date, as applicable. These transactions did not qualify for hedge accounting. Accordingly, changes in the fair values during the six months ended 30 June 2014 and 2013, were charged to the condensed consolidated statement of profit or loss and other comprehensive income.

To the extent there are liabilities of Wynn Macau under the swap agreement, such liabilities are secured by the same collateral package securing the Wynn Macau Credit Facilities.

OFF BALANCE SHEET ARRANGEMENTS

We have not entered into any transactions with special purpose entities nor do we engage in any transactions involving derivatives except for interest rate swaps. We do not have any retained or contingent interest in assets transferred to an unconsolidated entity.

OTHER LIQUIDITY MATTERS

We expect to fund our operations and capital expenditure requirements from operating cash flows, cash on hand and availability under the Wynn Macau Credit Facilities. However, we cannot be sure that operating cash flows will be sufficient for those purposes. We may refinance all or a portion of our indebtedness on or before maturity. We cannot be sure that we will be able to refinance any of the indebtedness on acceptable terms or at all.

New business developments (including the development of our Wynn Palace project) or other unforeseen events may occur, resulting in the need to raise additional funds. There can be no assurances regarding the business prospects with respect to any other opportunity. Any other development would require us to obtain additional financing.

In the ordinary course of business, in response to market demands and client preferences, and in order to increase revenues, we have made and will continue to make enhancements and refinements to our resort. We have incurred and will continue to incur capital expenditures related to these enhancements and refinements.

Management Discussion and Analysis

Taking into consideration our financial resources, including our cash and cash equivalents, internally generated funds and availability under the Wynn Macau Credit Facilities, we believe that we have sufficient liquid assets to meet our working capital and operating requirements for the following 12 months.

There have been no convertible securities issued or granted by the Group, no exercise of any conversion or subscription rights, nor any purchase, sale or redemption by the Group of its listed Shares during the six months ended 30 June 2014.

CORPORATE GOVERNANCE

The Company is dedicated to maintaining and ensuring high standards of corporate governance practices and the corporate governance principles of the Company are adopted in the best interest of the Company and its Shareholders. The Company's corporate governance practices are based on the principles, code provisions and certain recommended best practices as set out in the Code.

The Company has complied with the code provisions in the Code for the six months ended 30 June 2014 except for the following deviation from provision A.2.1 of the Code.

Stephen A. Wynn as our Chairman and Chief Executive Officer

Under code provision A.2.1 of the Code, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. The Company does not at present separate the roles of the chairman and chief executive officer.

Mr. Wynn, the founder of the Company and Wynn Macau, serves as the Chairman and Chief Executive Officer of the Company. The Board has determined that the combination of these roles held singularly by Mr. Wynn is in the best interest of the Company and all Shareholders. The Board believes that the issue of whether to combine or separate the offices of Chairman of the Board and Chief Executive Officer is part of the succession planning process and that it is in the best interests of the Company for the Board to make a determination whether to combine or separate the roles based upon the circumstances. The Board has given careful consideration to separating the roles of Chairman and Chief Executive Officer and has determined that the Company and its Shareholders are best served by the current structure. Mr. Wynn's combined role promotes unified leadership and direction for the Board and executive management and allows for a single, clear focus for the Company's operational and strategic efforts.

The combined role of Mr. Wynn as both Chairman and Chief Executive Officer is balanced by the Company's governance structure, policies and controls. All major decisions are made in consultation with members of the Board and the relevant Board committees. The Company has three Board committees, namely the audit committee, remuneration committee, and nomination and corporate governance committee. Each Board committee comprises non-executive Directors only and is chaired by an independent non-executive Director. In addition, there are four independent non-executive Directors on the Board offering independent perspectives.

Other Information

This structure encourages independent and effective oversight of the Company's operations and prudent management of risk.

For the reasons stated above and as a result of the structure, policies and procedures outlined above, and in light of the historical success of Mr. Wynn's leadership, the Board has concluded that the current Board leadership structure is in the best interests of the Company and its Shareholders.

MODEL CODE

The Company adopted the Model Code on 16 September 2009 as its code of conduct for securities transactions by Directors. On 23 March 2010, the Company adopted its own code of conduct for securities transactions, which was subsequently updated in November 2013. The terms of such code are no less exacting than those set out in the Model Code. Having made specific enquiry of the Directors, all Directors have confirmed that they have complied with the required standard of dealings and code of conduct regarding securities dealings by directors as set out in the Model Code and the Company's own code of conduct for the six months ended 30 June 2014.

Income tax expense:

No provision for Hong Kong profit tax for the six months ended 30 June 2014 has been made as there was no assessable profit generated in Hong Kong (six months ended 30 June 2013: Nil). Taxation for overseas jurisdictions is charged at the appropriate prevailing rates ruling in the respective jurisdictions and the maximum rate is 12% (six months ended 30 June 2013: 12%). For the six months ended 30 June 2014, the tax provision of HK\$7.5 million results from the current income tax expense accrued by our subsidiaries owning WRM's shares under the WRM Shareholder Dividend Tax Agreement (six months ended 30 June 2013: HK\$7.5 million) and a deferred tax expense of HK\$5.0 million resulting from an increase in its deferred tax liability (six months ended 30 June 2013: Nil). Effective 6 September 2006, WRM received a 5-year exemption from Macau's 12% Complementary Tax on casino gaming profits (the "Tax Holiday"). On 30 November 2010, WRM received an additional 5-year exemption effective from 1 January 2011 through 31 December 2015. Accordingly, the Group was exempted from the payment of approximately HK\$436.4 million in such tax for the six months ended 30 June 2014 (six months ended 30 June 2013: HK\$399.1 million). The Group's non-gaming profits remain subject to the Macau Complementary Tax and its casino winnings remain subject to the Macau Special Gaming Tax and other levies in accordance with its Concession Agreement.

Interim Financial Information

6. INCOME TAX EXPENSE (continued)

In June 2009, WRM entered the WRM Shareholder Dividend Tax Agreement, effective retroactively to 2006, with the Macau Special Administrative Region that provided for annual payments of MOP7.2 million (approximately HK\$7.0 million) to the Macau Special Administrative Region in lieu of Complementary Tax on dividend distributions to its shareholders from gaming profits. The term of this agreement was five years, which coincided with the Tax Holiday which began in 2006. In November 2010, WRM applied for a 5-year extension of this agreement. In August 2011, the 5-year extension was granted with an annual payment of MOP15.5 million (approximately HK\$15.0 million) due to the Macau Special Administrative Region for each of the years 2011 through 2015.

The Group is exempted from income tax in the Isle of Man and the Cayman Islands. The Group's subsidiaries file income tax returns in Macau and various foreign jurisdictions as required by law. The Group's income tax returns are subject to examinations by tax authorities in the locations where it operates. The Group's 2009 to 2013 Macau Complementary Tax returns remain subject to examination by the Financial Services Bureau of the Government of the Macau Special Administrative Region (The "Financial Services Bureau"). In March 2013, the Financial Services Bureau commenced an examination of the 2009, 2010 and 2011 Macau Complementary Tax returns for WRM. Since the examination is in its initial stage, the Group is unable to determine if it will conclude within the next 12 months. The Group believes that its liability for uncertain tax positions is adequate with respect to these years.

In January 2013, the Financial Services Bureau examined the 2009 and 2010 Macau Complementary Tax returns of Palo. The examination resulted in no change to the tax returns.

Quarterly, the Group undertakes reviews for any potentially unfavorable tax outcome and when an unfavorable outcome is identified as being probable and can be reasonably estimated, the Group then establishes a tax reserve for such possible unfavorable outcome. Estimating potential tax outcomes for any uncertain tax issues is highly judgmental and may not be indicative of the ultimate settlement with the tax authorities.

As of 30 June 2014 and 31 December 2013, the Group has unrecognized tax losses of HK\$2.1 billion (31 December 2013: HK\$1.8 billion) and the Group believes that these unrecognized tax losses are adequate to offset adjustments that might be proposed by the Macau tax authorities. The Group believes that it has adequately provided reasonable reserves for prudent and foreseeable outcomes related to uncertain tax matters.
