Macau Operations

In the fourth quarter of 2011, net revenues were \$995.5 million, a 9.1% increase from the \$912.1 million generated in the fourth quarter of 2010. Adjusted property EBITDA in the fourth quarter of 2011 was \$313.1 million, up 5.5% from \$296.8 million in the fourth quarter of 2010.

Table games results in Macau are segregated into two distinct reporting categories, the VIP segment and the mass market segment.

Table games turnover in the VIP segment was \$29.7 billion for the fourth quarter of 2011, a 7.3% increase from \$27.7 billion in the fourth quarter of 2010. VIP table games win as a percentage of turnover (calculated before discounts and commissions) for the quarter was 3.18%, above the expected range of 2.7% to 3.0% and slightly higher than the 3.15% experienced in the fourth quarter of 2010.

Table games drop in the mass market category was \$692.3 million during the period, a 4.4% increase from \$663.3 million in the fourth quarter of 2010. Mass market table games win percentage (calculated before discounts) of 30.4% was higher than our revised range of 26% to 28% and above the 26.0% generated in the 2010 quarter.

Slot machine handle increased 12.2% to \$1.3 billion as compared to the prior year quarter. Win per unit per day was 23.2% higher at \$749, compared to \$608 in the fourth quarter of 2010.

We achieved an Average Daily Rate (ADR) of \$322 for the fourth quarter of 2011, 6.3% above the \$303 reported in the 2010 quarter. The property's occupancy was 94.2%, compared to 92.3% during the prior year period, and revenue per available room (REVPAR) was \$304 in the 2011 quarter, 8.6% above the \$280 reported in the prior year quarter.

Gross non-casino revenues increased 14.6% during the quarter to \$106.0 million, driven by strong performance from all non-casino segments.

We currently have 504 tables (295 VIP tables, 198 mass market tables and 11 poker tables) and 930 slot machines.

We continue to work on the final project scope, timeline and budget for our Cotai project.

Las Vegas Operations

For the fourth quarter ended December 31, 2011, net revenues were \$348.4 million, 7.2% higher than in the fourth quarter of 2010. Adjusted property EBITDA of \$89.1 million was up 30.3% versus the \$68.3 million generated in the comparable period in 2010. EBITDA margin on net revenues was 25.6% in the fourth quarter of 2011 compared to 21.0% in the fourth quarter of 2010.

Net casino revenues in the fourth quarter of 2011 were \$145.8 million, up 4.7% from the fourth quarter of 2010. Table games drop was \$594.5 million, compared to drop of \$564.8 million in the 2010 quarter and table games win percentage of 23.3% was within the property's expected range of 21% to 24% and higher than the 22.5% reported in the 2010 quarter. Slot machine handle of \$660.1 million was 5.4% below the comparable period of 2010, however net slot win was up 0.9% due to better hold in the 2011 quarter.

Gross non-casino revenues for the quarter were \$246.6 million, a 6.8% increase from the fourth quarter of 2010, driven by higher revenues across all non-gaming segments.

Room revenues were up 11.7% to \$85.3 million during the quarter, versus \$76.4 million in the fourth quarter of 2010. Average Daily Rate (ADR) was up 6.3% to \$250 while occupancy of 79.1% was below the 81.8% experienced in the fourth quarter of 2010. Revenue per available room (REVPAR) was \$197 in the 2011 quarter, 2.6% above the \$192 reported in the prior year quarter. During the fourth quarter of 2011, we had 1.0% of the rooms out due to renovations while we had 9.0% of the rooms out due to renovations in the fourth quarter of 2010.

Food and beverage revenues increased 5.3% to \$103.2 million, retail revenues were \$22.3 million in the quarter, 1.7% above last year's levels, and entertainment revenues increased 2.5% to \$20.7 million from the fourth quarter of 2010.

Balance Sheet and other

Our total cash balance at December 31, 2011 was \$1.3 billion. Total debt outstanding at the end of the year was \$3.2 billion, including \$2.6 billion of Wynn Las Vegas debt and \$628 million of Wynn Macau debt.

For the three months and the year ended December 31, 2011, we recorded an income tax benefit. Such benefit primarily resulted from an increase in our U.S. deferred tax asset related to foreign tax credits and a decrease in our liability for uncertain foreign tax positions as the result of the statute of limitations lapse.

Forward-looking Statements

This release contains forward-looking statements regarding operating trends and future results of operations. Such forward-looking information involves important risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ from those expressed in any forward-looking statements made by us. The risks and uncertainties include, but are not limited to, competition in the casino/hotel and resorts industries, the Company's dependence on existing management, levels of travel, leisure and casino spending, general economic conditions, and changes in gaming laws or regulations. Additional information concerning potential factors that could affect the Company's financial results is included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 and the Company's other periodic reports filed with the Securities and Exchange Commission. The Company is under no obligation to (and expressly disclaims any such obligation to) update its forward-looking statements as a result of new information, future events or otherwise.

Non-GAAP financial measures

(1) "Adjusted property EBITDA" is earnings before interest, taxes, depreciation, amortization, pre-opening costs, property charges and other, corporate expenses, stock-based compensation, and other non-operating income and expenses, and includes equity in income from unconsolidated affiliates. Adjusted property EBITDA is presented exclusively as a supplemental disclosure because management believes that it is widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses adjusted property EBITDA as a measure of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors. The Company also presents adjusted property EBITDA because it is used by some investors as a way to measure a company's ability to incur and service debt, make capital expenditures and meet working capital requirements. Gaming companies have historically reported EBITDA as a supplement to financial measures in accordance with U.S. generally accepted accounting principles ("GAAP"). In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including Wynn Resorts, Limited, have historically excluded from their EBITDA calculations pre-opening expenses, property charges, corporate expenses and stock-based compensation, that do not relate to the management of specific casino properties. However, adjusted property EBITDA should not be considered as an alternative to operating income as an indicator of the Company's performance, as an alternative to cash flows from operating activities as a measure of liquidity, or as an alternative to any other measure determined in accordance with GAAP. Unlike net income, adjusted property EBITDA does not include depreciation or interest expense and therefore does not reflect current or future capital expenditures or the cost of capital. The Company has significant uses of cash flows, including capital expenditures, interest payments, debt principal repayments, taxes and other non-recurring charges, which are not reflected in adjusted property EBITDA. Also, Wynn Resorts' calculation of adjusted property EBITDA may be different from the calculation methods used by other companies and, therefore, comparability may be limited.

(2) Adjusted net income attributable to Wynn Resorts is net income before pre-opening costs, property charges and other, and other non-cash non-operating income and expenses. Adjusted net income attributable to Wynn Resorts and adjusted net income per share attributable to Wynn Resorts ("EPS") are presented as supplemental disclosures because management believes that these financial measures are widely used to measure the performance, and as a principal basis for valuation, of gaming companies. These measures are used by management and/or evaluated by some investors, in addition to income and EPS computed in accordance with GAAP, as an additional basis for assessing period-to-period results of our business. Adjusted net income attributable to Wynn Resorts and adjusted net income attributable to Wynn Resorts per share may be different from the calculation methods used by other companies and, therefore, comparability may be limited.

The Company has included schedules in the tables that accompany this release that reconcile (i) net income attributable to Wynn Resorts to adjusted net income attributable to Wynn Resorts, and (ii) operating income (loss) to adjusted property EBITDA and adjusted property EBITDA to net income attributable to Wynn Resorts.
