Note 2 - Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States ("U.S.") generally accepted accounting principles ("GAAP") have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures herein are adequate to make the information presented not misleading. In the opinion of management, the accompanying condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature, necessary to a fair presentation of the results for the interim periods presented. The results for the three and nine months ended September 30, 2026 are not necessarily indicative of results to be expected for any other interim period or the full fiscal year ending December 31, 2026. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

Principles of Consolidation

The accompanying condensed consolidated financial statements include the accounts of the Company, its majority-owned subsidiaries, and entities the Company identifies as variable interest entities ("VIEs") of which the Company is determined to be the primary beneficiary. For information on the Company's VIEs, see Note 16, "Retail Joint Venture." If the entity does not qualify for consolidation and the Company has significant influence over the operating and financial decisions of the entity, the Company accounts for the entity under the equity method. All significant intercompany accounts and transactions have been eliminated.

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates and assumptions reflected in the financial statements relate to and include, but are not limited to, inputs into the Company's estimated allowance for deferred tax assets and credit losses, estimates regarding the useful lives and recoverability of long-lived and intangible assets, valuations of derivatives, and litigation and contingency estimates.

Gaming Taxes

The Company is subject to taxes based on gross gaming revenues in the jurisdictions in which it operates, subject to applicable jurisdictional adjustments. These gaming taxes are recorded as casino expenses in the accompanying Condensed Consolidated Statements of Operations. These taxes totaled $459.3 million and $509.9 million for the three months ended September 30, 2026 and 2025, respectively, and $1.49 billion and $1.40 billion for the nine months ended September 30, 2026 and 2025, respectively.

Investments

As of September 30, 2026, the Company held $150.2 million and $55.8 million in U.S. treasuries (including accrued interest), recorded at amortized cost within Investments and Long-term investments, respectively, in the Condensed Consolidated Balance Sheets. The estimated fair value of the Company's U.S. treasuries as of September 30, 2026 was approximately $205.1 million, as determined based on quoted market prices in active markets (Level 1 inputs), and the unrecognized holding loss was $0.9 million.

As of December 31, 2025, the Company held $475.0 million in fixed deposits, recorded at fair value within Investments, and $127.3 million and $67.6 million in U.S. treasuries (including accrued interest), recorded at amortized cost within Investments and Long-term investments, respectively, in the Condensed Consolidated Balance Sheets. The estimated fair value of the Company's U.S. treasuries as of December 31, 2025 was approximately $194.4 million, as determined based on quoted market prices in active markets (Level 1 inputs), and the unrecognized holding loss was $0.5 million.

As of the balance sheet date, the Company evaluates whether the unrealized losses are attributable to credit losses or other factors. The Company considers the severity of the decline in value, creditworthiness of the issuer and other relevant factors and records an allowance for credit losses, limited to the excess of amortized cost over fair value, with a corresponding charge to earnings. The allowance may be subsequently increased or decreased based on the prevailing facts and circumstances. During the three and nine months ended September 30, 2026 and 2025, the Company recorded no allowance for credit losses related to its investments.

Investments in Unconsolidated Affiliates

The Company accounts for its investment in Island 3 and affiliated ventures (the "Al Marjan Joint Venture") using the equity method. Under the equity method, the investment's carrying value is adjusted for the Company's share of the investee's earnings and losses, capital contributions to and distributions from the investee, and capitalization of interest cost incurred by the Company during the investee's initial development period.

The Company records its share of income and loss on investments in unconsolidated affiliates as a component of Operating income within the Company's accompanying Condensed Consolidated Statements of Operations, as the Company's investments in unconsolidated affiliates are an extension of the Company's core business operations. The Company recognized a loss on investments in unconsolidated affiliates of $0.2 million and $7.1 million for the three months ended September 30, 2026 and 2025, respectively, and $16.5 million and $16.6 million for the nine months ended September 30, 2026 and 2025, respectively, recorded in Pre-opening expenses within the Company's accompanying Condensed Consolidated Statements of Operations.

Recently Issued Accounting Standards

In November 2024, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2024-03, *Income Statement — Reporting Comprehensive Income — Expense Disaggregation Disclosures (Subtopic 220-40)* ("ASU 2024-03"). The standard provides guidance on expanded disclosures related to the disaggregation of income statement expenses. The standard specifically requires additional disclosure of certain costs and expenses, including purchases of inventory, employee compensation, depreciation and intangible asset amortization included in each relevant expense caption. This guidance is effective for fiscal years beginning after December 15, 2026, and interim periods within annual reporting periods beginning after December 15, 2027, on a retrospective or prospective basis, with early adoption permitted. The Company's adoption of ASU 2024-03 will result in additional disclosures but is not expected to have an impact on the Company's financial condition, results of operations and cash flows.

In September 2025, the FASB issued ASU 2025-06, *Intangibles — Goodwill and Other — Internal-Use Software (Subtopic 350-40)* ("ASU 2025-06"), which revises the approach to accounting for internal-use software costs by eliminating all references to the stages of software development projects, thereby making the guidance adaptable to a variety of software development methodologies. ASU 2025-06 will be effective for annual periods beginning after December 15, 2027, and interim periods within those annual reporting periods, on a prospective, modified or retrospective basis, with early adoption permitted. The Company is currently evaluating the impact that this guidance will have on the Company's consolidated financial statements and related disclosures.

(1) Casino outstanding chips generally represent amounts owed to gaming promoters and customers for chips in their possession, and casino front money deposits represent funds deposited by customers before gaming play occurs. These amounts are included in customer deposits on the Condensed Consolidated Balance Sheets and may be recognized as revenue or redeemed for cash in the future.

(2) Advance room deposits and ticket sales represent cash received in advance for goods or services to be provided in the future. These amounts are included in customer deposits on the Condensed Consolidated Balance Sheets and will be recognized as revenue when the goods or services are provided or the events are held. Decreases in this balance generally represent the recognition of revenue and increases in the balance represent additional deposits made by customers. The deposits are expected to primarily be recognized as revenue within one year.

(3) Other gaming-related liabilities generally represent unpaid wagers primarily in the form of unredeemed slot, race and sportsbook tickets or wagers for future sporting events. The amounts are included in other accrued liabilities on the Condensed Consolidated Balance Sheets.

(4) Loyalty program and related liabilities represent the deferral of revenue until the loyalty points or other complimentaries are redeemed. The amounts are included in other accrued liabilities on the Condensed Consolidated Balance Sheets and are expected to be recognized as revenue within one year of being earned by customers.

Note 12 - Income Taxes

The Company recorded income tax expense of $5.6 million and $61.1 million for the three months ended September 30, 2026 and 2025, respectively, and income tax expense of $31.9 million and $82.7 million for the nine months ended September 30, 2026 and 2025, respectively, primarily related to its U.S.-based operating profits.

The difference between the statutory tax rate of 21% and the effective tax rate of 7.9% for the nine months ended September 30, 2026 is due to the exemption from Macau's 12% Complementary Tax on casino gaming profits earned by Wynn Macau SA.

Note 13 - Earnings Per Share

Basic earnings per share ("EPS") is computed by dividing net income attributable to Wynn Resorts by the weighted average number of common shares outstanding during the period. Diluted EPS is computed by dividing net income attributable to Wynn Resorts, adjusted for the potential dilutive impact assuming that the conversion of the WML Convertible Bonds occurred at the later of the date of issuance or beginning of the period presented under the if-converted method, by the weighted average number of common shares outstanding during the period increased to include the number of additional shares of common stock that would have been outstanding if the potential dilutive securities had been issued, to the extent such impact is not anti-dilutive. Other potentially dilutive securities include share-based awards outstanding under the Wynn Resorts, Limited Third Amended and Restated 2014 Omnibus Incentive Plan.

The weighted average number of common and common equivalent shares used in the calculation of basic and diluted EPS consisted of the following (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2026	2025	2026	2025

Note 15 - Commitments and Contingencies

Litigation

The Company and its affiliates are involved in litigation arising in the normal course of business. In the opinion of management, such litigation is not expected to have a material effect on the Company's financial condition, results of operations, and cash flows.

Al Marjan Island Funding Commitments

In connection with the construction of Wynn Al Marjan Island and surrounding developments, including Janu Al Marjan Island, a hotel and residential development to be operated by Aman Group, the Company is required to contribute capital to the Al Marjan Joint Venture to fund 40% of the project design and development costs in exchange for a pro-rata share of equity. During the three and nine months ended September 30, 2026, the Company contributed $62.2 million and $210.4 million of cash into the Al Marjan Joint Venture, bringing our life-to-date cash contributions to $1.12 billion. The remaining 40% pro-rata share of the required cash contributions for Wynn Al Marjan Island, including Janu Al Marjan Island, is currently estimated to be between $465 million and $590 million inclusive of capitalized interest and fees.

Al Marjan Facility Completion Guarantee

In February 2025, Wynn Al Marjan Island FZ-LLC (the "Borrower"), a wholly-owned subsidiary of Island 3, an unconsolidated affiliate, entered into a facility agreement with a syndicate of lenders (the "Al Marjan Facility Agreement") which provides the Borrower with approximately $2.4 billion (or equivalent in local currency) delayed draw secured term loan facility to finance the development of Wynn Al Marjan Island (the "Al Marjan Facility").

The Company is not a party to the Al Marjan Facility Agreement, but as a condition precedent to the Al Marjan Facility being made available to the Borrower, the Company and the government of Ras Al Khaimah, acting through the Investment and Development Office of Ras Al Khaimah (collectively, the "Al Marjan Guarantors"), entered into a guarantee (the "Completion Guarantee") in favor of First Abu Dhabi Bank PJSC, as security agent for itself and the other secured parties (collectively, the "Secured Parties") under the Al Marjan Facility Agreement. The guarantees and undertakings provided by the Al Marjan Guarantors under the Completion Guarantee terminate on the earlier of: (1) the date on which all secured liabilities under the Al Marjan Facility Agreement have been paid in full, and (2) the date of practical completion of the project (as provided in the Al Marjan Facility Agreement), taking place no later than June 30, 2028.

Interest Rate Equity Contribution Agreement

In July 2026, the Al Marjan Guarantors entered into an interest rate equity contribution agreement ("IRECA") in favor of the Borrower and the Secured Parties which requires the Al Marjan Guarantors to make pro-rata equity contributions to the Borrower in the event there are Hedging Shortfalls, as defined below. Pursuant to the Al Marjan Facility Agreement, the Borrower is required to enter into interest rate hedging agreements with notional amounts equal to 75% of the aggregate principal amount of indebtedness then outstanding under the Al Marjan Facility (the "Hedging Requirement"). To the extent that the Borrower's interest rate hedging agreements are insufficient to cover the Hedging Requirement, the IRECA requires the Al Marjan Guarantors to provide financial support in the form of equity contributions to the Borrower for unhedged amounts

when the Emirates Interbank Offered Rate or the Term SOFR rate exceeds 5.0% and 4.5%, respectively (the "Hedging Shortfalls").

The Company accounts for its pro-rata portion of obligations under the IRECA as a derivative and reports it at fair value as of the end of each reporting period, with changes recognized in the statements of operations. The initial fair value of the IRECA was $10.0 million and is recorded within Investments in unconsolidated affiliates. The Company estimates the fair value of the IRECA using a combination of observable (Level 2) and unobservable (Level 3) inputs, including forecasted draws and hedging transactions of the Borrower, forward interest rate curves, discount rates and interest rate volatility. As of September 30, 2026, the estimated fair value of the IRECA was a liability of $17.9 million, with $0.7 million and $17.2 million recorded in Other accrued liabilities and Other long-term liabilities, respectively. The Company recorded a loss of $7.9 million for the three and nine months ended September 30, 2026 within Change in derivatives fair value in the accompanying Condensed Consolidated Statements of Operations.

DCP Completion Guarantee and Share Pledge

In February 2026, DCP AMI 3 FZ-LLC ("DCP"), an unconsolidated affiliate included in the Al Marjan Joint Venture, entered into a financing agreement for a U.S. dollar equivalent of approximately $45.1 million (the "DCP Financing"). DCP will construct and operate a district cooling plant serving Wynn Al Marjan Island and surrounding developments. In connection with the DCP Financing, the Al Marjan Guarantors entered into a completion guarantee, pursuant to which the Al Marjan Guarantors may be required to fund shortfalls necessary to achieve practical completion of the cooling plant by September 30, 2026. As of September 30, 2026, practical completion has been achieved and the cooling plant is operational. Pursuant to a shareholder side letter, the Al Marjan Guarantors are required to pledge their equity interests in DCP as collateral for the DCP Financing. As of September 30, 2026, the Company's investment in DCP was $18.4 million and is presented in Investments in unconsolidated affiliates in the Condensed Consolidated Balance Sheet.

Macau Land Concession

In July 2026, Palo Real Estate Company Limited ("Palo") and Wynn Macau SA, each an indirect subsidiary of the Company, accepted the terms and conditions of an amended and restated land concession contract from the Macau government (the "Amended Land Concession Contract"). The Amended Land Concession Contract amends and restates the original land concession contract among Palo, Wynn Macau SA and the Macau government published in the Official Gazette of Macau on May 2, 2012 (the "Land Concession Contract").

Pursuant to the Land Concession Contract, Palo leases 51 acres of land in the Cotai area of Macau (the "Cotai Land") from the Macau government for an initial term of 25 years from May 2, 2012 until May 1, 2037, with the right to renew for additional periods, subject to applicable legislation. The Land Concession Contract also requires that Wynn Macau SA, as a gaming concessionaire, operate and manage gaming operations on the Cotai Land.

The Amended Land Concession Contract permits Palo and Wynn Macau SA to expand Wynn Palace to develop a new five-star hotel, a theater and an event and entertainment center on the Cotai Land (the "Expanded Resort"). The Macau government has allocated Palo a maximum of 60 months from the date of publication of the Amended Land Concession Contract to complete development of the Expanded Resort on the Cotai Land. Upon acceptance of the conditions of the Amended Land Concession Contract, Palo paid an additional land premium of MOP652.3 million (approximately $80.8 million) as a one-time lump sum payment. Palo is also required to pay an additional annual rent to the Macau government, resulting in a total annual rent of MOP9.5 million (approximately $1.2 million) for the Expanded Resort. The rent for the Expanded Resort may be reviewed by the Macau government every five years since the date of publication of the Amended Land Concession Contract. Palo also provided the Macau government with an additional guarantee by means of a deposit or bank guarantee for an amount equal to the annual rent payable under the Amended Land Concession Contract.

Macau Government Investment Fund

In October 2026, Wynn Macau SA and Macau Project Management (No. 2) Limited, a limited liability company established by the Macau government, entered into a subscription agreement (the "Subscription Agreement"), pursuant to which Wynn Macau SA agreed to commit capital investments of up to MOP1.37 billion (approximately $168.9 million) to the Macau SAR Government Guidance Fund No. 2, Limited Partnership Fund (the "Fund"), which was established by the Macau government to support Macau's economic diversification. The amounts to be contributed to the Fund, pursuant to the

Subscription Agreement and the limited partnership agreement, will constitute non-gaming investment and be applied towards Wynn Macau SA's committed investment obligations under Wynn Macau SA's gaming concession contract.

Note 16 - Retail Joint Venture

As of September 30, 2026 and December 31, 2025, the Retail Joint Venture had total assets of $97.6 million and $96.5 million, respectively, and total liabilities of $608.4 million and $607.3 million, respectively. As of September 30, 2026 and December 31, 2025, the Retail Joint Venture's liabilities included long-term debt of $599.1 million and $598.4 million, respectively, net of debt issuance costs, related to the outstanding borrowings under the Retail Term Loan.

Note 17 - Segment Information

The Company has identified its reportable segments based on factors such as geography, regulatory environment, the Company's organizational and management reporting structure and the information reviewed by its chief operating decision maker, the Company's Chief Executive Officer ("CEO"). The primary profitability measure used by the Company's CEO to review segment operating results and allocate resources is Adjusted Property EBITDAR.

The Company has identified the following reportable segments: (i) Wynn Macau, representing the aggregate of Wynn Macau and Encore, an expansion at Wynn Macau, which are managed as a single integrated resort; (ii) Wynn Palace; (iii) Las Vegas Operations, representing the aggregate of Wynn Las Vegas, Encore, an expansion at Wynn Las Vegas, and the Retail Joint Venture, which are managed as a single integrated resort; and (iv) Encore Boston Harbor. For geographical reporting purposes, Wynn Macau, Wynn Palace, and Other Macau (which represents the assets of the Company's Macau holding company and other ancillary entities) have been aggregated into Macau Operations.

The following tables present the Company's segment information (in thousands):

Net income attributable to Wynn Resorts, Limited					**$ 227,306**

(1) Includes lease revenue accounted for under lease accounting guidance. For more information on leases, see Note 14, "Leases."
(2) Primarily comprised of payroll, cost of goods sold, marketing, promotional, facilities, taxes and licenses (excluding gaming taxes) and other operating expenses.
(3) For Las Vegas Operations, includes table and slot license fees.

(4) "Adjusted Property EBITDAR" is net income before interest, income taxes, depreciation and amortization, pre-opening expenses, property charges and other expenses, triple-net operating lease rent expense related to Encore Boston Harbor, management and license fees, corporate expenses and other expenses (including intercompany golf course, meeting and convention, and water rights leases), stock-based compensation, change in derivatives fair value, loss on debt financing transactions and other non-operating income and expenses. Adjusted Property EBITDAR is presented exclusively as a supplemental disclosure because management believes that it is widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses Adjusted Property EBITDAR as a measure of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors, as well as a basis for determining certain incentive compensation. The Company also presents Adjusted Property EBITDAR because it is used by some investors to measure a company's ability to incur and service debt, make capital expenditures and meet working capital requirements. Gaming companies have historically reported EBITDAR as a supplement to GAAP. In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including us, have historically excluded from their EBITDAR calculations pre-opening expenses, property charges, corporate expenses and stock-based compensation, that do not relate to the management of specific casino properties. However, Adjusted Property EBITDAR should not be considered as an alternative to operating income as an indicator of the Company's performance, as an alternative to cash flows from operating activities as a measure of liquidity, or as an alternative to any other measure determined in accordance with GAAP. Unlike net income, Adjusted Property EBITDAR does not include depreciation or interest expense and therefore does not reflect current or future capital expenditures or the cost of capital. The Company has significant uses of cash flows, including capital expenditures, triple-net operating lease rent expense related to Encore Boston Harbor, interest payments, debt principal repayments, income taxes and other non-recurring charges, which are not reflected in Adjusted Property EBITDAR. Also, the Company's calculation of Adjusted Property EBITDAR may be different from the calculation methods used by other companies and, therefore, comparability may be limited.

Overview

We are a designer, developer, and operator of integrated resorts featuring luxury hotel rooms, high-end retail space, an array of dining and entertainment options, meeting and convention facilities, and gaming, all supported by an unparalleled focus on our guests, our people, and our community. Through our approximately 71% ownership of Wynn Macau, Limited ("WML"), our concessionaire Wynn Resorts (Macau) S.A. ("Wynn Macau SA") operates two integrated resorts in the Macau Special Administrative Region of the People's Republic of China ("Macau"), Wynn Palace and Wynn Macau (collectively, our "Macau Operations"). In Las Vegas, Nevada, we operate and, with the exception of certain retail space, own 100% of Wynn Las Vegas. We are a 50.1% owner and managing member of a joint venture that owns and leases certain retail space at Wynn Las Vegas (the "Retail Joint Venture"). We refer to Wynn Las Vegas, Encore, an expansion at Wynn Las Vegas, and the Retail Joint Venture as our Las Vegas Operations. In Everett, Massachusetts, we operate Encore Boston Harbor, an integrated resort.

The Company has a 40% equity interest in Island 3 AMI FZ-LLC ("Island 3") and affiliated ventures (collectively, the "Al Marjan Joint Venture"), which is constructing an integrated resort property ("Wynn Al Marjan Island") in Ras Al Khaimah, United Arab Emirates.

Key Operating Measures

Certain key operating measures specific to the gaming industry are included in our discussion of our operational performance for the periods for which the Condensed Consolidated Statements of Operations are presented. These key operating measures are presented as supplemental disclosures because management and/or certain investors use these measures to better understand period-over-period fluctuations in our casino and hotel operating revenues. These key operating measures are defined below:

- Table drop in mass market for our Macau Operations is the amount of cash that is deposited in a gaming table's drop box plus cash chips purchased at the casino cage.
- Table drop for our Las Vegas Operations is the amount of cash and net markers issued that are deposited in a gaming table's drop box.
- Table drop for Encore Boston Harbor is the amount of cash and gross markers issued that are deposited in a gaming table's drop box.
- Rolling chips are non-negotiable identifiable chips that are used to track turnover for purposes of calculating incentives within our Macau Operations' VIP program.
- Turnover is the sum of all losing rolling chip wagers within our Macau Operations' VIP program.
- Table games win is the amount of table drop or turnover that is retained and recorded as casino revenues. Table games win is before discounts, commissions and the allocation of casino revenues to rooms, food and beverage and other revenues for services provided to casino customers on a complimentary basis. Table games win does not include poker rake.
- Slot machine win is the amount of handle (representing the total amount wagered) that is retained by us and is recorded as casino revenues. Slot machine win is after adjustment for progressive accruals and free play, but before discounts and the allocation of casino revenues to rooms, food and beverage and other revenues for services provided to casino customers on a complimentary basis.
- Poker rake is the portion of cash wagered by patrons in our poker rooms that is retained by the casino as a service fee, after adjustment for progressive accruals, but before the allocation of casino revenues to rooms, food and beverage and other revenues for services provided to casino customers on a complimentary basis. Poker tables are not included in our measure of average number of table games.

- Average daily rate ("ADR") is calculated by dividing total room revenues, including complimentaries (less service charges, if any), by total rooms occupied.
- Revenue per available room ("REVPAR") is calculated by dividing total room revenues, including complimentaries (less service charges, if any), by total rooms available.
- Occupancy is calculated by dividing total occupied rooms, including complimentary rooms, by the total rooms available.

Below is a discussion of the methodologies used to calculate win percentages at our resorts.

In our mass market operations in Macau, customers may purchase cash chips at either the gaming tables or at the casino cage. The measurements from our VIP and mass market operations are not comparable as the measurement method used in our mass market operations tracks the initial purchase of chips at the table and at the casino cage, while the measurement method from our VIP operations tracks the sum of all losing wagers. Accordingly, the base measurement from the VIP operations is much larger than the base measurement from the mass market operations. As a result, the expected win percentage with the same amount of gaming win is lower in the VIP operations when compared to the mass market operations.

In our VIP operations in Macau, customers primarily purchase rolling chips from the casino cage and can only use them to make wagers. Winning wagers are paid in cash chips. The loss of the rolling chips in the VIP operations is recorded as turnover and provides a base for calculating VIP win percentage. It is customary in Macau to measure VIP play using this rolling chip method. We typically expect our win as a percentage of turnover from these operations to be within the range of 3.1% to 3.4%.

In Las Vegas, customers purchase chips at the gaming tables in exchange for cash and markers. Customers may then redeem markers at the gaming tables or at the casino cage. The cash and markers, net of redemptions, used to purchase chips are deposited in the gaming table's drop box. This is the base of measurement that we use for calculating win percentage. Each type of table game has its own theoretical win percentage. Our expected table games win percentage is 22% to 26%.

At Encore Boston Harbor, customers purchase chips at the gaming tables in exchange for cash and markers. Customers may then redeem markers only at the casino cage. The cash and gross markers used to purchase chips are deposited in the gaming table's drop box. This is the base of measurement that we use for calculating win percentage. Each type of table game has its own theoretical win percentage. Our expected table games win percentage is 18% to 22%.

Entertainment, retail and other revenues decreased $7.1 million for the three months ended September 30, 2026, due mainly to lower entertainment venue sales at our Las Vegas Operations.

NM - Not meaningful.

The decrease in total operating expenses was primarily due to the decrease in casino expenses at our Macau Operations, largely driven by a decrease in gaming tax expense commensurate with lower casino revenues, partially offset by an increase in property charges and depreciation and amortization.

Casino expense decreased $14.1 million and $9.7 million at Wynn Palace and Wynn Macau, respectively, primarily due to lower gaming tax expense.

Food and beverage expense decreased $3.7 million at Encore Boston Harbor largely due to the closure of certain food and beverage outlets due to an ongoing labor dispute.

Entertainment, retail and other expense decreased $4.6 million, primarily due to lower entertainment production costs at our Las Vegas Operations.

Pre-opening expense decreased $4.6 million, primarily due to lower costs associated with Wynn Al Marjan Island for the three months ended September 30, 2026.

Depreciation and amortization expense increased $11.2 million at our Las Vegas Operations resulting from enhancements to our property and maintenance capital expenditures.

Property charges and other expenses for the three months ended September 30, 2026 consisted primarily of asset abandonments and disposals of $15.5 million at our Macau Operations and contract termination costs of $3.3 million at our Las Vegas Operations. Property charges and other expenses for the three months ended September 30, 2025 consisted primarily of asset abandonments and disposals of $4.6 million at our Macau Operations.

Other non-operating income and expenses

Interest expense, net of amounts capitalized, decreased $5.8 million. We capitalized interest of $21.9 million and $11.6 million in the three months ended September 30, 2026 and 2025, respectively. Interest expense, exclusive of capitalized interest, increased $4.4 million, primarily due to an increase in the weighted average interest rate from 6.08% for the three months ended September 30, 2025 to 6.23% for the three months ended September 30, 2026.

We recorded interest income of $12.6 million and $16.6 million in the three months ended September 30, 2026 and 2025, respectively, primarily related to interest earned on cash and cash equivalents held at financial institutions.

We incurred a foreign currency remeasurement loss of $1.9 million and a gain of $33.9 million for the three months ended September 30, 2026 and 2025, respectively. The impact of the exchange rate fluctuation of the Macau pataca, in relation to the U.S. dollar, on the remeasurements of U.S. dollar denominated debt and other obligations from our Macau-related entities primarily drove the variability between periods.

We recorded a gain of $10.5 million for the three months ended September 30, 2026, from change in derivatives fair value, which primarily includes a gain of $17.5 million related to foreign currency swaps and a loss of $7.9 million related to an interest rate equity contribution agreement with Wynn Al Marjan Island FZ-LLC, a subsidiary of Island 3. We recorded a loss of $13.2 million for the three months ended September 30, 2025, from change in derivatives fair value, which primarily includes a loss of $18.5 million related to the conversion feature on the WML Convertible Bonds and a gain of $6.1 million related to foreign currency swaps. For more information on the Company's derivative instruments, refer to Item 1—"Notes to Condensed Consolidated Financial Statements," Note 7, "Derivative Instruments" and Note 15, "Commitments and Contingencies."

We recorded a $5.4 million loss on debt financing transactions for the three months ended September 30, 2026 related to the redemption of the WLV 5 1/4% Senior Notes due 2027 ("2027 WLV Senior Notes"). We recorded a $0.6 million loss on debt financing transactions for the three months ended September 30, 2025, primarily related to the redemption of the WML 5 1/2% Senior Notes due 2026 ("2026 WML Senior Notes").

Income taxes

We recorded income tax expense of $5.6 million and $61.1 million for the three months ended September 30, 2026 and 2025, respectively, primarily related to our U.S.-based operating profits.

Net income attributable to noncontrolling interests

We recognized net income attributable to noncontrolling interests of $19.4 million and $40.1 million for the three months ended September 30, 2026 and 2025, respectively, primarily related to the noncontrolling interests' share of net income from WML.

Entertainment, retail and other revenues decreased $19.4 million, primarily as a result of lower entertainment venue sales at our Las Vegas Operations.

NM - Not meaningful.

The increase in total operating expenses was primarily due to an increase in casino expense at Wynn Palace, increases in food and beverage expense at our Las Vegas Operations and our Macau Operations, and an increase in depreciation and amortization expense across all of our properties.

Casino expense increased $128.8 million at Wynn Palace, primarily due to higher gaming tax expense.

Food and beverage expense increased $23.3 million at our Las Vegas Operations, primarily due to costs associated with new food and beverage offerings, and $15.5 million at our Macau Operations largely due to higher cost of sales and higher payroll and related costs.

Entertainment, retail and other expense decreased $10.1 million at our Las Vegas Operations due to a reduction in entertainment venue offerings.

Provision for credit losses increased $8.8 million and $2.9 million at our Macau Operations and Las Vegas Operations, respectively.

Depreciation and amortization expense increased $31.6 million, which includes increases across all of our properties, resulting from enhancements to our properties and maintenance capital expenditures.

Property charges and other expenses for the nine months ended September 30, 2026 consisted primarily of $20.7 million and $9.9 million of asset abandonments and disposals at our Macau Operations and our Las Vegas Operations, respectively, and $4.8 million and $3.6 million of contract terminations and other expenses at our Las Vegas Operations and our Macau Operations, respectively. Property charges and other expenses for the nine months ended September 30, 2025 consisted primarily of $6.6 million and $5.8 million of contract terminations and other expenses at our Las Vegas Operations and Encore Boston Harbor, respectively; and $11.7 million, $3.7 million and $2.8 million of asset abandonments and disposals at our Macau Operations, our Las Vegas Operations and Corporate and other, respectively.

Other non-operating income and expenses

Interest expense, net of amounts capitalized, decreased $13.5 million. We capitalized interest of $56.7 million and $32.8 million in the nine months ended September 30, 2026 and 2025, respectively. Interest expense, exclusive of capitalized interest, increased $10.5 million, primarily due to an increase in the weighted average interest rate from 6.08% for the nine months ended September 30, 2025 to 6.20% for the nine months ended September 30, 2026.

We recorded interest income of $38.5 million and $51.8 million in the nine months ended September 30, 2026 and 2025, respectively, primarily related to interest earned on cash and cash equivalents held at financial institutions.

We incurred a foreign currency remeasurement loss of $34.1 million and $10.7 million for the nine months ended September 30, 2026 and 2025, respectively. The impact of the exchange rate fluctuation of the Macau pataca, in relation to the U.S. dollar, on the remeasurements of U.S. dollar denominated debt and other obligations from our Macau-related entities primarily drove the variability between periods.

We recorded a gain of $100.6 million for the nine months ended September 30, 2026, from change in derivatives fair value, which primarily includes a gain of $75.1 million related to foreign currency swaps, a gain of $31.7 million related to the conversion feature on the WML Convertible Bonds, and a loss of $7.9 million related to an interest rate equity contribution agreement with Wynn Al Marjan Island FZ-LLC, a subsidiary of Island 3. We recorded a loss of $43.8 million from changes in derivatives fair value for the nine months ended September 30, 2025, which primarily includes a loss of $28.5 million related to the conversion feature on the WML Convertible Bonds and a loss of $8.4 million related to foreign currency swaps. For more information on the Company's derivative instruments, refer to Item 1—"Notes to Condensed Consolidated Financial Statements," Note 7, "Derivative Instruments" and Note 15, "Commitments and Contingencies."

We recorded a $5.4 million loss on debt financing transactions for the nine months ended September 30, 2026 related to the redemption of the 2027 WLV Senior Notes. We recorded a $1.7 million loss on debt financing transactions for the nine months ended September 30, 2025 related to the amendment of the WRF credit facility and the redemption of the 2026 WML Senior Notes.

Income taxes

We recorded income tax expense of $31.9 million and $82.7 million for the nine months ended September 30, 2026 and 2025, respectively, primarily related to our U.S.-based operating profits.

Net income attributable to noncontrolling interests

We recognized net income attributable to noncontrolling interests of $92.0 million and $59.5 million for the nine months ended September 30, 2026 and 2025, respectively, primarily related to the noncontrolling interests' share of net income from WML.

Segment Information

As further described in Item 1—"Notes to Condensed Consolidated Financial Statements," Note 17, "Segment Information," we use Adjusted Property EBITDAR to manage the operating results of our segments. Adjusted Property EBITDAR is net income before interest, income taxes, depreciation and amortization, pre-opening expenses, property charges and other expenses, triple-net operating lease rent expense related to Encore Boston Harbor, management and license fees, corporate expenses and other expenses (including intercompany golf course, meeting and convention, and water rights leases), stock-based compensation, change in derivatives fair value, loss on debt financing transactions and other non-operating income and expenses. Adjusted Property EBITDAR is presented exclusively as a supplemental disclosure because management believes that it is widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses Adjusted Property EBITDAR as a measure of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors, as well as a basis for determining certain incentive compensation. We also present Adjusted Property EBITDAR because it is used by some investors to measure a company's ability to incur and service debt, make capital expenditures and meet working capital requirements. Gaming companies have historically reported EBITDAR as a supplement to GAAP. In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including us, have historically excluded from their EBITDAR calculations pre-opening expenses, property charges, corporate expenses and stock-based compensation, that do not relate to the management of specific casino properties. However, Adjusted Property EBITDAR should not be considered as an alternative to operating income as an indicator of our performance, as an alternative to cash flows from operating activities as a measure of liquidity, or as an alternative to any other measure determined in accordance with GAAP. Unlike net income, Adjusted Property EBITDAR does not include depreciation or interest expense and therefore does not reflect current or future capital expenditures or the cost of capital. We have significant uses of cash flows, including capital expenditures, triple-net operating lease rent expense related to Encore Boston Harbor, interest payments, debt principal repayments, income taxes and other non-recurring charges, which are not reflected in Adjusted Property EBITDAR. Also, our calculation of Adjusted Property EBITDAR may be different from the calculation methods used by other companies and, therefore, comparability may be limited.

The following table summarizes Adjusted Property EBITDAR (dollars in thousands) for Wynn Palace, Wynn Macau, Las Vegas Operations and Encore Boston Harbor, as reviewed by management and summarized in Item 1—"Notes to Condensed Consolidated Financial Statements," Note 17, "Segment Information." That footnote also presents a reconciliation of Adjusted Property EBITDAR to net income attributable to Wynn Resorts, Limited.

Adjusted Property EBITDAR at Wynn Palace and Wynn Macau decreased $34.5 million and $18.5 million, respectively for the three months ended September 30, 2026. Adjusted Property EBITDAR at Wynn Palace increased $51.7 million and decreased $34.1 million at Wynn Macau for the nine months ended September 30, 2026. The fluctuations in Adjusted Property EBITDAR at our Macau Operations for each of the comparative periods presented are driven largely by changes in casino revenues, partially offset by casino expenses.

Adjusted Property EBITDAR at our Las Vegas Operations decreased $44.6 million for the three months ended September 30, 2026, primarily due to a decrease in casino revenues and room revenues of $38.2 million and $4.9 million, respectively. Adjusted Property EBITDAR at our Las Vegas Operations decreased $55.1 million for the nine months ended September 30, 2026, largely due to an increase in operating expenses.

Adjusted Property EBITDAR at Encore Boston Harbor decreased $8.3 million and $23.0 million for the three and nine months ended September 30, 2026, respectively, primarily due to decreases in casino revenues of $11.0 million and $22.6 million, respectively, partially offset by decreases in casino expenses. Adjusted Property EBITDAR at Encore Boston Harbor for the three and nine months ended September 30, 2026 was negatively impacted by an ongoing labor dispute.

Refer to the discussions above regarding the specific details of our results of operations.

Operating Activities

Our operating cash flows primarily consist of operating income (excluding depreciation and amortization and other non-cash charges), interest paid and earned, and changes in working capital accounts such as receivables, inventories, prepaid expenses, and payables. Our table games play is a mix of cash play and credit play, while our slot machine play is conducted primarily on a cash basis. A significant portion of our table games revenue is attributable to the play of a limited number of premium customers who gamble on credit. The ability to collect these gaming receivables may impact our operating cash flow for the period. Our rooms, food and beverage, and entertainment, retail and other revenue is conducted on a cash and credit basis. Accordingly, operating cash flows will be impacted by changes in operating income and accounts receivable, net.

During the nine months ended September 30, 2026, the decrease in cash flows from operating activities was primarily driven by changes in working capital.

Investing Activities

Our investing activities primarily consist of project capital expenditures and maintenance capital expenditures associated with maintaining and continually refining our world-class integrated resort properties.

During the nine months ended September 30, 2025, we incurred capital expenditures of $188.8 million at our Las Vegas Operations, $132.4 million at Wynn Palace, $48.8 million at Wynn Macau, and $17.9 million at Encore Boston Harbor, primarily related to enhancements at our properties and maintenance capital expenditures, and $101.3 million at Corporate and other primarily related to future development projects. In addition, during the nine months ended September 30, 2025, we invested $236.1 million, including $203.3 million of cash contributions, in the Al Marjan Joint Venture and purchased $475.0 million in investments, comprised of fixed deposits maturing in less than one year.

Capital Resources

The following table summarizes our unrestricted cash and cash equivalents, investments and available revolver borrowing capacity, presented by significant financing entity as of September 30, 2026 (in thousands):

	Total Cash and Cash Equivalents	Investments[1]	Revolver Borrowing Capacity
Wynn Macau, Limited and subsidiaries	$ 1,150,396	$ 150,202	$ 1,345,897
Wynn Resorts Finance, LLC[2]	371,455	—	1,034,659
Wynn Resorts, Limited and other	120,305	—	—
Total	**$ 1,642,156**	**$ 150,202**	**$ 2,380,556**

(1) Investments consist of U.S. treasuries maturing in less than one year and exclude long-term investments of $55.8 million.
(2) Excluding Wynn Macau, Limited and subsidiaries.

Wynn Macau, Limited and subsidiaries. WML generates cash from our Macau Operations and may utilize proceeds from the WM Cayman II Revolver as needed. We expect to use this cash to service our WML Senior Notes, WM Cayman II Revolver, and WML Convertible Bonds, to pay dividends to shareholders of WML (of which we own approximately 71%), and to fund working capital and capital expenditure requirements at WML and our Macau Operations.

We are constructing the Enclave at Wynn Palace, a 432-key, all-suite hotel tower to be developed adjacent to Wynn Palace's east entrance. The estimated project budget for the Enclave at Wynn Palace is between $900 million and $950 million, inclusive of capitalized interest. Construction began in the second half of 2026 and is expected to span 2.5 years. Total project capital expenditures for the Enclave at Wynn Palace and other enhancements at our Macau Operations are expected to be between $350 million and $400 million during 2026 and between $750 million and $800 million during 2027. Maintenance capital expenditures at our Macau Operations are expected to be between $70 million and $80 million during 2026.

WML is a holding company and, as a result, its ability to pay dividends to WRF is dependent on WML receiving distributions from its subsidiaries. WML, as guarantor under the WM Cayman II Revolver facility agreement, may be subject to certain restrictions on payments of dividends or distributions to its shareholders, unless certain financial criteria have been satisfied. The WM Cayman II Revolver facility agreement contains representations, warranties, covenants and events of default customary for similar financings, including, but not limited to, restrictions on indebtedness to be incurred by WM Cayman II or its subsidiaries.

On June 16, 2026, WML paid a cash dividend of HK$0.223 per share on its common stock for a total U.S. dollar equivalent of approximately $149.8 million with respect to the year ended December 31, 2025. Our share of this dividend was $106.7 million.

On September 24, 2026, WML paid a cash dividend of HK$0.223 per share on its common stock for a total U.S. dollar equivalent of approximately $150.7 million with respect to the six months ended June 30, 2026. Our share of this dividend was $106.6 million.

If our portion of cash available for repatriation was repatriated on September 30, 2026, it would be subject to minimal U.S. taxes.

Wynn Resorts Finance, LLC and subsidiaries. Wynn Resorts Finance, LLC ("WRF" or "Wynn Resorts Finance") generates cash from distributions from its subsidiaries, which include our Macau Operations, Wynn Las Vegas, and Encore Boston Harbor, and capital contributions from Wynn Resorts, as required. In addition, WRF may utilize its available revolving borrowing capacity as needed. We expect to use this cash to service our WRF Credit Facilities and the WRF Senior Notes, to pay dividends or distributions to Wynn Resorts, and to fund working capital and capital expenditure requirements as needed.

We expect to make estimated project capital expenditures between $350 million and $375 million during 2026 and between $175 million and $200 million during 2027 related to enhancements at our Las Vegas Operations. We expect to make total maintenance capital expenditures at our Las Vegas Operations and Encore Boston Harbor between $90 million and $115 million, on a combined basis, during 2026.

WRF is a holding company and, as a result, its ability to pay dividends or distributions to Wynn Resorts is dependent on WRF receiving distributions from its subsidiaries. The WRF Credit Agreement contains customary negative and financial covenants, including, but not limited to, covenants that restrict WRF's ability to pay dividends or distributions and incur additional indebtedness.

In September 2026, WRF issued $900.0 million aggregate principal amount of 6 7/8% Senior Notes due 2035 (the "2035 WRF Senior Notes") in a private offering. WRF used the net proceeds from the issuance of the 2035 WRF Senior Notes, along with cash on hand, to: i) redeem in full the outstanding principal amount of the Wynn Las Vegas 5 1/4% Senior Notes due 2027 (the "2027 WLV Senior Notes") in accordance with the terms and conditions of the 2027 WLV Senior Notes' indenture; and ii) pay fees and expenses related to the issuance of the 2035 WRF Senior Notes and the redemption of the 2027 WLV Senior Notes. Included in the $900.0 million redemption was $20.0 million aggregate principal amount of 2027 WLV Senior Notes held by Wynn Resorts.

As a result of the financing transactions described in our discussion of capital resources above, our long-term debt obligations decreased by $880.0 million in 2027 and increased by $900.0 million in 2035. Our annual fixed payments are expected to decrease $12.2 million in 2026, and increase $39.3 million in 2027, $61.9 million in each of 2028, 2029, and 2030, and $278.4 million thereafter.

Wynn Resorts, Limited and other subsidiaries. Wynn Resorts, Limited is a holding company and, as a result, our ability to pay dividends is dependent on our ability to obtain funds and our subsidiaries' ability to provide funds to us. Wynn Resorts, Limited primarily generates cash from royalty (including intellectual property license) and management agreements with our resorts, dividends and distributions from our subsidiaries, and the operations of the Retail Joint Venture of which we own 50.1%. Fees payable by Wynn Macau SA to Wynn Resorts, Limited under its intellectual property license agreement are capped at $150.0 million for the year ending December 31, 2026. We expect to use cash held by Wynn Resorts, Limited and other to service our Retail Term Loan, to fund working capital needs of our subsidiaries, pay dividends, make required capital contributions to the Al Marjan Joint Venture, and for general corporate purposes.

During the third quarter of 2026, the Company contributed $62.2 million of cash into Wynn Al Marjan Island and Janu Al Marjan Island, a hotel and residential development to be operated by Aman Group, bringing our life-to-date cash contributions to $1.12 billion. We estimate our remaining 40% pro-rata share of the required equity for the development projects is between $465 million and $590 million, inclusive of capitalized interest and fees. Wynn Al Marjan Island is currently expected to open in September 2027 and Janu Al Marjan Island is expected to open in 2029.

The Company paid a cash dividend of $0.25 per share on its common stock during each of the three month periods ended March 31, 2026, June 30, 2026 and September 30, 2026 and recorded $26.1 million, $25.8 million and $25.7 million, respectively, against accumulated deficit.

On November 5, 2026, the Company announced that its Board of Directors declared a cash dividend of $0.25 per share, payable on November 30, 2026 to stockholders of record as of November 16, 2026.

Other Factors Affecting Liquidity

We may refinance all or a portion of our indebtedness on or before maturity. We cannot assure you that we will be able to refinance any of the indebtedness on acceptable terms or at all.

Legal proceedings in which we are involved also may impact our liquidity. No assurance can be provided as to the outcome of such proceedings. In addition, litigation inherently involves significant costs. For information regarding legal proceedings, see Note 15, "Commitments and Contingencies."

In November 2024, the Company's Board of Directors authorized the Company to repurchase a total of up to $1.0 billion of the Company's outstanding shares of common stock, increasing the previously available repurchase authorization by approximately $766 million. The equity repurchase program authorizes discretionary repurchases by the Company from time to time through open market purchases, including pursuant to plans designed to comply with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, privately negotiated transactions, accelerated share repurchases, or block trades, subject to market conditions, applicable legal requirements and other factors. The repurchase authorization has no expiration date, and the equity repurchase program may be suspended, discontinued or accelerated at any time. As of September 30, 2026, we had $268.0 million in repurchase authority remaining under the program.

We have in the past repurchased, and in the future, we may periodically consider repurchasing our outstanding notes for cash. The amount of any shares and/or notes to be repurchased, as well as the timing of any repurchases, will be based on business, market and other conditions and factors, including price, contractual requirements or consents, and capital availability.

New business developments or other unforeseen events may occur, resulting in the need to raise additional funds. We continue to explore opportunities to develop additional gaming or related businesses in domestic and international markets. There can be no assurances regarding the business prospects with respect to any other opportunity. Any new development may require us to obtain additional financing. We may decide to conduct any such development through Wynn Resorts, Limited or through subsidiaries separate from the Las Vegas, Boston or Macau-related entities.

Contractual Commitments

In July 2026, Palo Real Estate Company Limited ("Palo") and Wynn Macau SA, each an indirect subsidiary of the Company, accepted the terms and conditions of an amended and restated land concession contract from the Macau government (the "Amended Land Concession Contract"). The Amended Land Concession Contract permits Palo and Wynn Macau SA to expand Wynn Palace to develop a new five-star hotel, a theater and an event and entertainment center on the Cotai Land (the "Expanded Resort"). The Macau government has allocated Palo a maximum of 60 months from the date of publication of the Amended Land Concession Contract to complete development of the Expanded Resort on the Cotai Land. Upon acceptance of the conditions of the Amended Land Concession Contract, Palo paid an additional land premium of MOP652.3 million (approximately $80.8 million) as a one-time lump sum payment. Palo is also required to pay an additional annual rent to the Macau government.

In October 2026, Wynn Macau SA and Macau Project Management (No. 2) Limited, a limited liability company established by the Macau government, entered into a subscription agreement (the "Subscription Agreement"), pursuant to which Wynn Macau SA agreed to commit capital investments of up to MOP1.37 billion (approximately $168.9 million) to the Macau SAR Government Guidance Fund No. 2, Limited Partnership Fund (the "Fund"), which was established by the Macau government to support Macau's economic diversification. The amounts to be contributed to the Fund, pursuant to the Subscription Agreement and the limited partnership agreement, will constitute non-gaming investment and be applied towards Wynn Macau SA's committed investment obligations under Wynn Macau SA's gaming concession contract.

For additional information, refer to Note 15, "Commitments and Contingencies" of Part I in this Quarterly Report on Form 10-Q.

Off Balance Sheet Arrangements

A subsidiary of Island 3 is party to a facility agreement which provides a $2.4 billion (or equivalent in local currency) delayed draw secured term loan facility to finance the development of Wynn Al Marjan Island (the "Al Marjan Facility"). The Company is not a party to the Al Marjan Facility agreement, but as a condition precedent to the Al Marjan Facility being made available to the Borrower, the Company and the government of Ras Al Khaimah entered into a completion guarantee agreement in favor of certain secured parties under the Al Marjan Facility agreement. For additional information, refer to Note 15, "Commitments and Contingencies" of Part I in this Quarterly Report on Form 10-Q.

Critical Accounting Policies and Estimates

A description of our critical accounting policies is included in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2025. There have been no significant changes to these policies for the nine months ended September 30, 2026.

Recently Adopted Accounting Standards and Accounting Standards Issued But Not Yet Adopted

See related disclosure in Note 2, "Basis of Presentation and Significant Accounting Policies" of Part I in this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates, foreign currency exchange rates and commodity prices.

Additional information about market risks to which we are exposed is included within our Annual Report on Form 10-K for the year ended December 31, 2025.

Interest Rate Risks

One of our primary exposures to market risk is interest rate risk associated with our debt facilities that bear interest based on floating rates. We attempt to manage interest rate risk by managing the mix of long-term fixed rate borrowings and variable rate borrowings, supplemented by hedging activities as believed by us to be appropriate. We cannot assure you that these risk management strategies will have the desired effect, and interest rate fluctuations could have a negative impact on our results of operations and cash flows.

Interest Rate Sensitivity

In order to mitigate exposure to interest rate fluctuations on the Retail Term Loan, in October 2024, the Company entered into an interest rate swap with a notional value of $600.0 million, maturing in February 2027. The interest rate swap effectively fixes the variable component of the interest rate on the Retail Term Loan at 3.385% through February 2027.

As of September 30, 2026, approximately 81% of our long-term debt was based on fixed rates. Based on our outstanding borrowings as of September 30, 2026 and after giving effect to the interest rate swap on the Retail Term Loan, an assumed 100 basis point change in the variable rates would cause our annual interest expense to change by $20.9 million.

Foreign Currency Risks

We expect most of the revenues and expenses for any casino that we operate in Macau will be denominated in Hong Kong dollars or Macau patacas; however, a significant portion of the debt issued by WML is denominated in U.S. dollars. Fluctuations in the exchange rates resulting in weakening of the Macau pataca or the Hong Kong dollar in relation to the U.S. dollar could have materially adverse effects on our results, financial condition and ability to service debt.

The Company is a party to foreign currency swap agreements with the objective of managing foreign currency exchange rate risk associated with the outstanding U.S. dollar denominated WML Senior Notes. The foreign currency swaps exchange predetermined amounts of Hong Kong dollars for U.S. dollars at a contractual spot rate, and as of September 30, 2026, have an aggregate notional amount of $4.10 billion, and have maturities between October 2027 and August 2030. For additional information, refer to Note 7, "Derivative Instruments" of Part I in this Quarterly Report on Form 10-Q.

Based on our balances as of September 30, 2026 and after giving effect to our foreign currency swaps, an assumed 1% change in the U.S. dollar/Hong Kong dollar exchange rate would cause a foreign currency gain/loss of $0.9 million.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objectives and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on such evaluation, the Company's CEO and CFO have concluded that, as of the period covered by this report, the Company's disclosure controls and procedures were effective, at the reasonable assurance level, in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act and were effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including the Company's CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter to which this report relates that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

We are party to lawsuits in the ordinary course of business. As with all litigation, no assurance can be provided as to the outcome of such matters and we note that litigation inherently involves significant costs. For information regarding the Company's legal proceedings see Item 1—"Notes to Condensed Consolidated Financial Statements," Note 15, "Commitments and Contingencies" of Part I in this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors

A description of our risk factors can be found in Item 1A, Part I of our Annual Report on Form 10-K for the year ended December 31, 2025. There were no material changes to those risk factors during the nine months ended September 30, 2026.

Refer to Note 13, "Stock-Based Compensation" in our Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2025 for additional details on our stock incentive plans.

(2) On April 20, 2016, the Company announced that the Board of Directors authorized an equity repurchase program of up to $1.0 billion of our common stock, with no expiration. On November 1, 2024, the Company's Board of Directors authorized the Company to repurchase a total of up to $1.0 billion of the Company's outstanding shares of common stock, increasing the previously available repurchase authorization by approximately $766 million. The equity repurchase program authorizes discretionary repurchases by the Company from time to time through open market purchases, including pursuant to plans designed to comply with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, privately negotiated transactions, accelerated share repurchases, or block trades, subject to market conditions, applicable legal requirements and other factors.
